Jennie –

Thanks for the note and the offer. Yes, I'd like a copy of the letter just in case it comes up again.

Subject: FW: R3-17-000-9296-C Request for review and consideration of August Mack Environmental, Inc.'s (AME) claims for costs incurred during cleanup operations of Big John Salvage Superfund Site in WV.

Eileen and Carolyn – Because of the R5 connection and Superfund topic, I wanted to let you know we received an inquiry from Senator Donnelly re: August Mack Environmental, an Indiana company which worked on a cleanup at a site in West Virginia. Eileen previously directed a call from Rep. Carson's office to us for response. Looks like we now have another inquiry, this time from the Senator's office, regarding EPA's decision to not reimburse the company for work done at the site.

This came directly to our Acting RA and you may not have seen it in CMS; we're planning to respond out of R3. Please let us know if you'd like a copy of the response.

Thanks!
Jennie
